John Souders, Ph.D.
OP-TEC Director of Curriculum
Center for Occupational Research and Development
P.O. Box 21689
Waco, TX 76702-1689

Dear Dr. Souders:

The Community College of Denver is pleased that our industry partners and the University of Colorado CAPT Laboratory have each agreed to support the Community College of Denver (CCD) in our work with Center for Occupational Research and Development to establish a Precision Optics program for Colorado. In the addition to the support from these partners, CCD is committed to providing institutional and federal resources to further equip this laboratory for our students.

We are excited to be part of a project that will provide trained technicians for this important industry in our state.

Respectfully,

A handwritten signature in cursive script that reads "Karén Clos Bleeker".

Karén Clos Bleeker, Ed.D
President
